

Discovery Health Record Solutions Merges with HealthPort

Company divested as part of Silverhawk Capital Partners investment strategy November 9, 2012
Capital Partners is pleased to announce the sale of its portfolio company, Discovery Health Record Solutions to HealthPort, the nation's leading protected health information services company. Completing this sale marks the successful conclusion to the original investment we made in the fall of 2007.

During Silverhawk's ownership, the company successfully executed a strategy to expand its market reach nationally and increase its market share in targeted healthcare provider sectors. Over the past five years the company has grown revenues nearly 5 fold through direct sales initiatives and by completing 9 accretive acquisitions. "This transaction represents the successful strategic exit we envisioned when we made our first investment in Discovery. This union with HealthPort offers the best potential outcome for all the stakeholders of Discovery, both customers and employees, as the health information services sector continues its rapid evolution," said David Scanlan, Managing Partner of Silverhawk.
